

2 års fabriksgaranti på Bednar maskiner uden begrænsning på antal kørte ha.

2024-10-17 08:39 CEST

BEDNAR maskiner: Nu med 2 års fabriksgaranti uden begrænsning på antal kørte hektar

The two-year factory warranty is our commitment to the maximum quality of BEDNAR machines for our customers

"With the large number of competing products on the market, we know that choosing a new machine is no easy matter. Based on close contact with our customers, we see their requirements as decisive for the selection of a new machine. The quality of the machines and individual components remains key

for them. Since we as a company stand behind the quality of our machines, we decided to demonstrate our confidence to our customers with a two-year factory warranty,” says David Cholenský, head of the Service Department at BEDNAR FMT.

The two-year factory warranty project will be launched on 1 November 2024 and applies to the complete product portfolio of BEDNAR machines.

“I trust the quality of our machines and the sophistication of the BEDNAR design, which allows us to offer a two-year factory warranty and thus meet the requirements of our premium customers,” said Ladislav Bednář, owner of the company.

The quality of materials, components and the resulting machines has always been important to us. The actual launch of the machine is preceded by a demanding selection of suppliers, their continuous inspection, testing of the parts, up to the final testing of the machine as a whole, which takes place in different soil and weather conditions to ensure that the final design meets our quality demands.

BEDNAR is a progressive manufacturer of agricultural technology

The Company specialises in machines for soil cultivation, seeding, fertilisation and mulching. Thanks to its close connection to the agricultural practice, the Company is one of the most innovative manufacturers of agricultural machines, developing and manufacturing machines with a high added value for the end user. More information about BEDNAR is available at <https://www.bednar.com/>.

Danish Agro a.m.b.a.

Danish Agro koncernen består af en række agroindustrielle selskaber i ind- og udland. De har alle den overordnede målsætning - i et tæt samspil med kunderne - at medvirke til værdiskabende løsninger på de enkelte bedrifter. Koncernen er beskæftiget inden for salg af foderblandinger, råvare- og vitaminforblandinger, gødning, planteværn, såsæd og energi samt køb af afgrøder fra landbruget. Endvidere forhandler koncernen en række stærke maskinbrands til landbruget samt driver en omfattende kæde af hobby- og fritidsforretninger. Danish Agro koncernen beskæftiger 5.500 medarbejdere og vil i 2024 have en omsætning i

niveauet 48 mia. kr.
